Central Intelligence Agency

Washington, D. C. 20505

17 NOV 1982

MEMORANDUM FOR: Mr. Hugh Montgomery
Director, Bureau of Intelligence and Research
Department of State

SUBJECT : Analytical Support for Active Measures Program

REFERENCE : Memorandum, Same Subject, from the Director of
Intelligence and Research to the Deputy
Director of Central Intelligence dated
3 November 1982

1. I share your desire to keep the pressure on the Soviets vis-a-vis the Active Measures problem. We will continue to do what we can to assist the efforts of the Department of State in this regard.

2. Although there was good reason for the initial analytical effort in delineating the Soviet Active Measures problem to have been an Interagency Intelligence Memorandum, the follow-on trend report, as you noted, was an Operational Intelligence Memorandum from CIA. We continue to believe that this latter art form, which is technically a product of CIA alone, but which was, in fact, coordinated in draft with INR, continues to be appropriate for the periodic progress reports you discuss. We will make every effort to have the next trend report issued before the end of the year, and to coordinate it in draft with INR.

John N. McMahon
Deputy Director of Central Intelligence
